## **Verification Process**

### **♦ CONFIDENTIAL DOCUMENT**

Do not share this document. This is a intern procedure only intended for staff and helpers!

Let me guide you on how to verify New members:

## 1st part: Are you from a trusted source?

When the member arrive in the server, the message pops up in  $\diamondsuit \triangleright - \cdot$  download! Then they have to do the verification process on the  $\bigvee$ : verify, channel.

### **NOTION : 19 OF CAREFUL AT THE FOLLOWING POINTS:**

- If the source is unsure (for exemple: they said they from a ally, but the screenshot shows nothing, pls ask them where are they came from.)
- Be sure they give a rule.
- If they underage, pls kick them.

Next step will depends of what their answer are at the \*\*\*\* . What are you here for? [visitor/member/allying?] : question.

### 1st: Visitor

If a newcomer wants to be a visitor, follow this:

-> Give role(s):

-> Remove roles

### 2nd: Member

If a newcomer wants to be a member, follow this:

-> Give role(s):

```
● 与 . ✓ Allowed <3
```

-> Remove roles:

-> Tell/Ask:

something like:

```
>\(\text{P} + *A*__llowed__ ! *P*__lease__ claim a name. \qquad 90 \qquad \qqqq \qqq \qqqq \qqq \qqqq \qqq \qqqq \qqq \qqqq \qqq \qqqq \qqq \qqqq \qqq \qqqq \qqq \qqqq \qqq \qqqq \qqq \qqqq \qqq \qqqq \qqq \qqqq \qqqq
```

## 3rd step: allying

If a newcomer is here to make an Allyship or to represent an Allyship, follow this:

-> Give role(s):

```
● ≋~ Ally
```

-> Remove roles:

-> Tell/Ask:

if they want to be either visitor or if they want to enlist.

# 2nd part: what is your name:

for people who wants to enlist as member, with their  $\bigcirc \subseteq Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role, they get access to  $\rightarrow Allowed < 3$  role,

They now have to claim a name. for this they have to use the following template:

### For oc (Own character):

### For Cosplay:

```
→ · Source :
```

-- · -- -- · --

```
Note
```

If someone claims Gabriel as a OC, another person can't claim Gabriel from Ultrakill as a cosplay.

Then, when the template is filled by the member, here what we have to do:

### If K9 is false:

-> Give role(s):

```
● 与 . ✓ Signed file <3
```

-> Remove roles:

```
≋ , Unsigned File } 🔀
```

#### -> Tell/Ask:

something like:

```
This name is yours!
Your claim has successfully joined the ByteDefenders unit. You have to do uniform now.
<#1143112199137660958>
```

### If k9 is true:

-> Give role(s):

-> Remove roles:

```
≋ , Unsigned File } 🔀
```

### -> Tell/Ask:

something like:

```
This name is yours!

Your new claim has successfully joined the FurTech unit. You have to do uniform now.

<#1169951456296718346>
```

## 3rd part: Here's your uni!

After claiming, it's uniform making time!

```
If they are ByteDefender, they got access to: \cdot bytedefenders \cdot \Box If they are FurTech, they got access to: \cdot \bigcirc \cdot furtech
```

Let them make their uni. one they finished it, they have to submit it on the  $\bowtie \triangleleft \cdot$  submit  $\cdot$  channel. Here is all uniforms examples:

## **ByteDefenders uniforms:**

## Formal uniform!

**⚠ Attention** 

Make sure the eyes is like here!

## **FurTech uniforms:**

### Formal uniforms!

## **Combat uniforms!**

**Attention** 

Make sure the eyes is like here!

You can directly go see all addons for Special needs on The addons Slides

After verify the uniform, if something is not okey, tell the member what they need to fix. If everything is ok:

### -> Give role(s):

### If k9 is False:

#### if K9 is True:

### -> Remove roles:

### -> Tell/Ask:

Ok youre good now
